

PSYCHOERGOMETRY - ASSESSMENT OF CORE HUMAN ABILITIES

Objective, scientifically grounded, fast, and accurate

KEY DIFFERENCES AND ADVANTAGES:

- ✓ Predicts a person's success in **ANY** type of activity – mental, physical, and combined.
- ✓ Evaluates **CORE HUMAN ABILITIES** that are independent of experience. Core human abilities are innate qualities, the foundation of all human activity
- ✓ Results **cannot be affected** by coaching, practice, or deliberate response manipulation.
- ✓ **Gamified** testing format; total assessment time is only **14 minutes**.
- ✓ The hardware-software system **allows simultaneous evaluation of 8 or more people** at the same time.
- ✓ **Developed by researchers**, scientifically validated, and described in peer-reviewed publications.
- ✓ The system and software have **3 certificates of state registration** of databases and computer programs
- ✓ **Can be integrated** with existing assessment methods and digital platforms, increasing the expertise of the company's HR staff.
- ✓ No sensors, electrodes, or questionnaires are required – **only the timing and sequence of events** in seven tests are objectively recorded.

Helps you to solve problems like:

- personnel selection (hiring and firing)
- HR audit (personnel assessment)
- talent pool development
- staff rotation
- team building
- psychological support
- prevention of **burnout and boreout**
- evaluation of the effectiveness of restorative and corrective measures for staff
- profiling of positions and professions
- workforce planning and optimization
- career guidance at any age
